   If approved in three readings, Ordinance #2022-11 will increase the purchasing authorization limits from $5,000 to $10,000 for administrative officers of the Borough and from $30,000 to $75,000 for the Borough Manager. Ordinance #2022-11 was unanimously approved in its first reading.

   During the first reading, Assembly Member Kensinger asked if it were possible to leave the purchasing authorization limits for administrative officers of the Borough to the Manager's discretion. A second draft version of the ordinance is attached with wording highlighted in yellow added to account for this idea. The Assembly will need to amend Ordinance #2022-11 by motion if they choose to use any of the suggested highlighted wording.

   In addition, Clerk Thompson realized the $5,000 spending limit is directly spelled out in PMC Chapters 3.12, Borough Clerk, and 3.48, Parks & Recreation Director. If the Assembly wishes to increase the spending limits outlined in Chapter 4.04, amendments must be made to Chapters 3.12 and 3.48 as well by motion (these changes are also highlighted in yellow on the second draft version of the ordinance).

Borough Manager’s Report
Assembly Meeting 15 August 2022

- The Public Works landslide area has been temporarily stabilized and the creek returned to acceptable flow conditions for the present. We continue to work toward design of permanent repairs in consultation with ADF&G, the Corps of Engineers and DEC.

- Construction on the culvert replacement project is complete and Reid Brothers has demobilized from the work site. ADF&G has inspected the work and is pleased with the results. We have a FEMA inspection at the end of August as part of project close out.

- Lots of rotten wood being replaced at the museum: siding; portions of joists, studs, and subfloor; and some 8x8 main beams. One piling was beginning to fail and was repaired as well. Maintenance Tech Jim Holder has had his hands full with this project but is making great progress.

- A technician from Allegrezza Door Company in Anchorage is visiting Petersburg this past week to inspect and evaluate the Borough’s bay doors in several locations. The baler, Public Works garage, police dept and fire department bay doors will be inspected, adjusted, and evaluated to determine if each door needs additional repairs or replacement.

- Water Staff is working with CRW Engineering out of Anchorage to accomplish our next round of dam safety inspections at Cabin Creek and City Creek dams. The inspections will occur on September 7th and 8th. These inspections are completed every three years.

- Wastewater Staff continues to service cruise ships with hauling of black water as needed.

- The wastewater department would like to remind the public that the waste wood drop-off at site at 14th Street (adjacent to the wastewater treatment plant) is closed until further notice.

- McMillen Jacobs is approaching 95% on construction plans and specifications for the Blind Slough Hydro project. They hope to provide the plans to PMPL by August 19th for review and are targeting to wrap up review and last changes for bid advertising by the end of September.

- Joe Viechnicki has been hired as the department’s next Meter Reader/Operator and will start full time on August 22nd. Thanks goes out to Alice Williams for her time at PMPL and we wish her the best of luck with her future endeavors.

- Carl Tate has been hired as PMPL’s new Groundman/Operator and will transition from the police department to PMPL on September 6th. We look forward to having Carl on the crew and believe he will be a great addition to the department.
PMPL is seeking to secure a consulting team to perform the next Part 12D Periodic Inspection as mandated by the FERC. Recent regulation changes have made the process a bit different for this inspection that is done every 5 years, but the Regulatory Commission is trying to assist their license holders as much as possible.

Community Development department is cleaning out residential building plans from past projects. If we have a copy of your house plans, we will contact you by email or mail to let you know where you can pick up the plans. Our Harbormaster and Assembly spoke about the potential for adding another Harbor at Scow Bay that could allow for larger USCG vessels to locate to Petersburg.

ADOT has updated the Needs List with the information approved by the Assembly. There continues to be some items on the list that have not been approved by the Assembly. I am working with ADOT so I can better explain why they remain on the Petersburg list.

Harbor continues to stay busy. Transients are starting to wrap up their SE summer experience and heading for South.

On Tues 8/2 Harbor staff met with USACE & Western Marine to discuss logistics for the upcoming SH Dredge project due to kick off October 1st. Dear Borough assembly and Mayor Jensen:

I am opposed to giving Borough employees an extra week of PTO from covid ARRP funds to the tune of ~$140000. The argument presented in the proposal in favor of such a move is that these employees were and are essential to the running of the Borough government. They are. However they are not more essential than the employees at the grocery stores, the canneries, or the other local stores around town. And it was the Borough government who shut this town down. Reminds me of the fox guarding the chicken coop and in the end, the fox is given a chicken or 2 for doing such a good job. I appreciate the workforce of this city: there are many exceptional employees in both Borough and private business who are part of the life blood of this community. I don’t see that govt employees are any more deserving of an extra week of PTO than those of any other business, fisherman, or grocery store staff. How about the Borough use those funds for improving the unpaved roads in town where there are so many potholes, it makes sense to avoid driving on them so as to not shorten the life of one’s vehicle?

Secondly, the capital projects list shows the new hospital in the number one spot, for $88,000,000, some of which has already been allocated. This cost might have been somewhat close to actual cost in 2016-2017. Look at inflation numbers now (guaranteed they will not improve anytime soon), supply chain issues, shortage of work force..... realistically we are looking at at least double that figure. The assembly and hospital have still yet to provide the public with the economic basis and viability of such a massive undertaking in not just cost of construction but years down the road as that is maintained. Let’s put this before the voters for it is they, their children and grandchildren who will bear this cost.

Thank you.
